PREVIEW

SAMBA DE AMIGO: PARTY CENTRAL

GENRE: RHYTHM ACTION SYSTEM: NINTENDO SWITCH

Get ready to pick up your maracas and get your groove on to Samba de Amigo: Party Central!

Using the Joy-Con controllers, you'll play along to the beat of the music. We think games like this work really well on the Switch and are always best played with friends – luckily there's Local and Online Multiplayer too!

We're most excited to try out the World Party mode which has a survival aspect to it. At the end of each round, the lowest scoring player will drop out which is perfect if you're up for a challenge and want to show the world what you've got!

While it may seem like it's just one type of game, there's also mini games to get stuck into as well. This feature of the game has been kept under wraps for a while, but we have high hopes they'll also be super-fun!

Players will be able to customise their characters with all kinds of unique costumes and accessories which we think is a nice touch.

There's also going to be a post-launch DLC to look forward to. On release there will be 40 songs to choose from and we hope the expansion will bring even more catchy tunes as well as other cool new features.

Younger gamers might not be as familiar with Samba de Amigo compared to other SEGA games like Sonic and Super Monkey Ball. However, we think it's about time these musical monkeys had their time in the spotlight once again!

SPONGEBOB SQUAREPANTS: THE COSMIC SHAKE

OUR SCORE: 8

YOUR SCORE:

SpongeBob SquarePants: The Cosmic Shake is a fun platforming game starring iconic characters from **Bikini Bottom**! You'll explore **Wish Worlds** and undo the damage **SpongeBob** and **Patrick** have made with a bottle of magic bubble soap.

While exploring each unique world, **SpongeBob** wears costumes to fit in. There are loads of extra outfits, a lot of which are cool references to the TV show.

You'll also unlock new special powers, which keeps things interesting. The character swapping from the last game, **Battle for Bikini Bottom**, is gone, meaning you won't have to switch all the time. The levels are straightforward, and we thought the gameplay felt a lot like **Crash Bandicoot** games.

SpongeBob SquarePants: The Cosmic Shake is never too challenging, but it does make you fight the same enemies a lot and the levels are quite long. If there's a sequel, we'd like to see more variety!

TALES OF SYMPHONIA REMASTERED

Join **Lloyd Irving** and his friends in the fight to save two worlds, **Sylvarant** and **Tethe'alla**, in **Tales of Symphonia Remastered**! This RPG is a remaster of a popular game which was first released nearly 20 years ago and is part of **The Tales** series.

Storytelling and great characters are at the heart of this game. We loved the cutscenes and getting to know all the cool cast, and the story kept us entertained!

There's plenty of exploration to do in the lively world of **Sylvarant**! We loved working our way through the dungeons, and the combat elements were super-fun – although not super-smooth! You can play with up to 3 friends on co-op mode, which we think would be epic.

Tales of Symphonia Remastered is an awesome JRPG with a great story that kept us interested! We felt the graphics could have been better, especially for a remaster. But it doesn't take away from the fun gameplay, especially if you're a fan of retro games!

CHEF LIFE: A RESTAURANT SIMULATOR

Get ready to serve up a treat in **Chef Life: A Restaurant Simulator**! You'll create the restaurant of your dreams and become a fine-dining sensation.

From the menu to the restaurant itself there's lots to customise which is one of the best parts about the game. As well as cook, you'll source ingredients and manage your staff. It feels very rewarding getting meals right and using your hard-earned cash to buy new equipment and décor to improve your restaurant!

With how easy the controls are to grasp; we felt the tutorial was a bit long, making the game feel slow to start. However, once you've passed it, you can start making all kinds of unique French and Italian dishes as you improve, which is lots of fun.

If juggling orders starts feeling overwhelming, you can change the difficulty settings for a more chill cooking experience – making it a great pick for casual gamers!

RHYTHM SPROUT: SICK BEATS & BAD SWEETS!

Mash up your love of music with your love of gaming! In **Rhythm Sprout: Sick Beats & Bad Sweets** you'll play as **Sprout the Chosen Onion**, stepping and fighting bosses to a cool beat as you try to save the **Vegetable Kingdom**!

For a game with rhythm in its name, the soundtrack had to be epic. The songs are super catchy, and totally original to the game.

If you like to LOL while you game, you'll love **Rhythm Sprout**! The story is funny, and the cute characters are really cool – even the baddies!

Level modifiers and bonus levels help keep this game totally fresh; our fave was turning up the speed with Turbo Mode! There's even cool customisation where you can dress up **Sprout** in unlockable outfits and even weapon skins! We did think the game was a little short, but it's the kind of game you wouldn't mind restarting again and again!

THE DOs & DONT's OF MULTIVERSUS

Wanna be the best **MultiVersus** player you can? Check this out!

DO

LEARN HOW THE CHARACTERS WORK!

Every character in **MultiVersus** can do different things and has different strengths and weaknesses! Once you learn what every character does, you'll not only be a better fighter, but you'll know what to expect from others!

PAY ATTENTION TO YOUR COOLDOWNS!

Some attacks have cooldowns, which means you need to wait a couple of seconds before you can do them again. Pay attention to those moves, as you don't want to try and throw a Batarang and then find out you can't!

TRY OUT THE ENTIRE ROSTER!

Variety is the spice of life! Just because you're a good **Black Adam**, it doesn't mean you can't also be a great **Marvin the Martian**. Make sure you experiment - don't just stick to one!

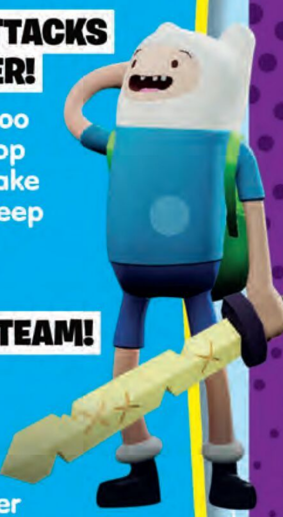
DON'T

FORGET TO APPLY PERKS BEFORE A BATTLE!

Make sure you equip the best power-up perks you have on your character before a battle! If you and another player are an even match for one another, then the right perk could be what decides the winner!

USE THE SAME ATTACKS OVER AND OVER!

If you use the same move too many times in a row, it'll stop doing as much damage! Make sure you mix things up to keep your damage high and the action interesting!



FORGET YOU'RE ON A TEAM!

MultiVersus is a 2 vs 2 co-op game! Make sure that you're doing moves that will help out your partner whenever you can - and if they're struggling with their opponent, go and help them!

CRAZY QUESTS!

There's always loads of random adventures to be had in the world of **Pokémon**!

Seeing Red!

Pokémon Let's Go Pikachu and Eevee

● This one is a real test of your battling skills in **Pokémon: Let's Go Pikachu** and **Eevee**. After beating the **Elite Four** and six Master Trainers, you will be able to face-off against **Red**, the Master Trainer from the original games! You'll need to be at your best to win this battle!

Patrolling with Zubat!

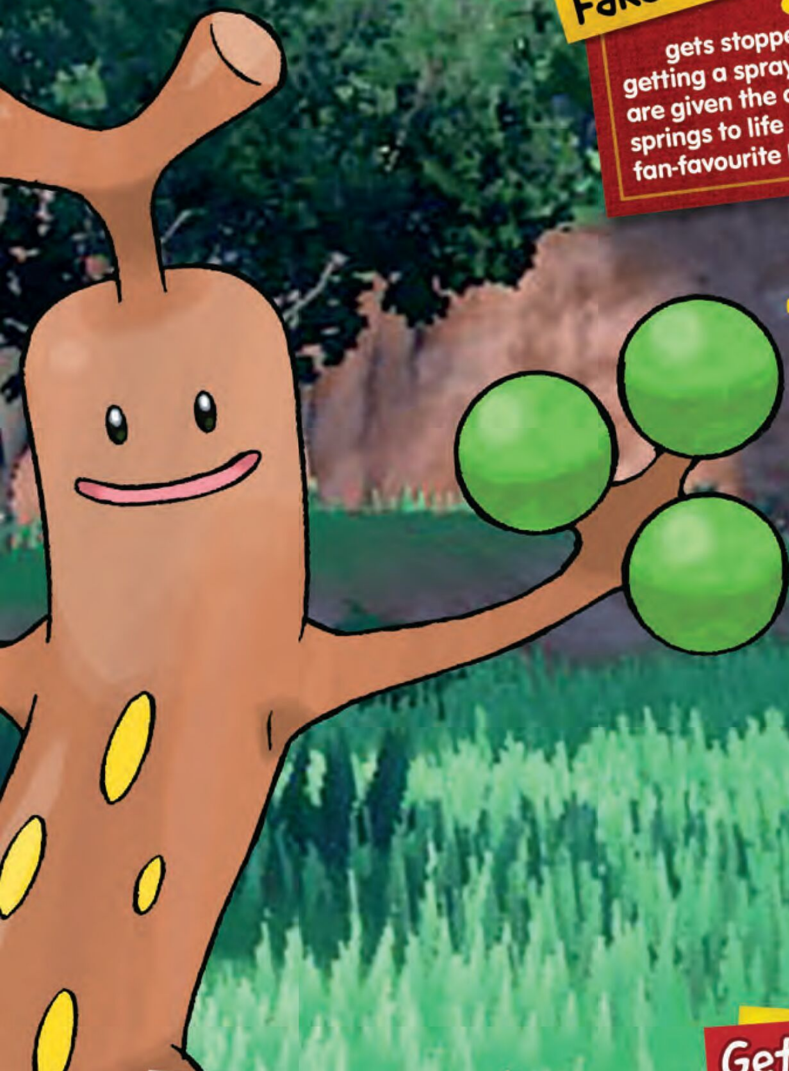
Pokémon Legends: Arceus

● A guard in **Pokémon Legends: Arceus** is having trouble getting around **Jubilife Village** at night. She asks you to get her a **Zubat** as she believes they can see in the dark. Her surprise, and excitement, at realising **Zubat** has no eyes is a heartwarming end to a side quest!

Fake Tree!

Pokémon Gold and Siver

● In **Pokémon Gold** and **Silver**, your progress gets stopped by a tree blocking your path. After getting a spray bottle from the nearby flower shop, you are given the option to squirt this tree. Suddenly, the tree springs to life and you are introduced to **Sudowoodo**, now a fan-favourite Rock-type **Pokémon**.



The Ditto Police Officer!

Pokémon Ultra Sun and Ultra Moon

● In **Ultra Sun** and **Moon**, there was a mysterious Police Officer who, on closer inspection, was actually a **Ditto**! You then had to catch more of the transforming **Pokémon**. A fun, weird, and rewarding quest!

Getting Schooled!

Pokémon Scarlet and Violet

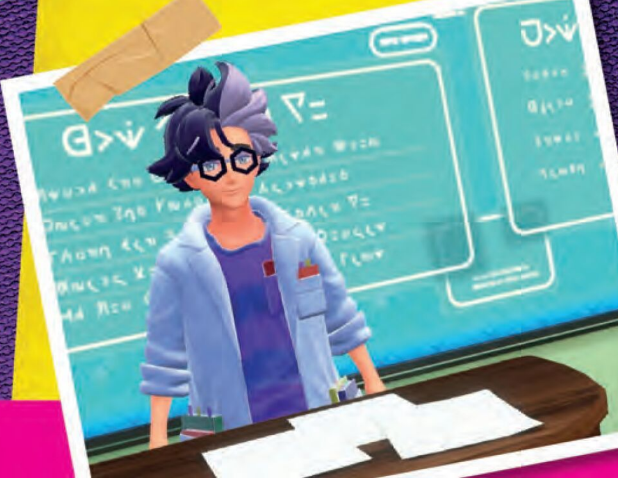
● The games **Pokémon Scarlet** and **Violet** are centered around the **Pokémon Academy** in **Mesagoza**. You can actually attend the different classes here as they unlock throughout the game. These are really helpful as they teach you about key concepts of the gameplay. You also get rewards for attending them and helping out the teachers around the school!

You obtained an Old Letter!

Letters from the Past!

Pokémon Sword and Shield

● **Sword** and **Shield** had you delivering a loving letter from a girl you met in one of the towns. After delivering the letter to a man, who says he hadn't seen the girl since they were children, she disappears. Instead, you'll find a Reaper Cloth item in her place. Spooky!



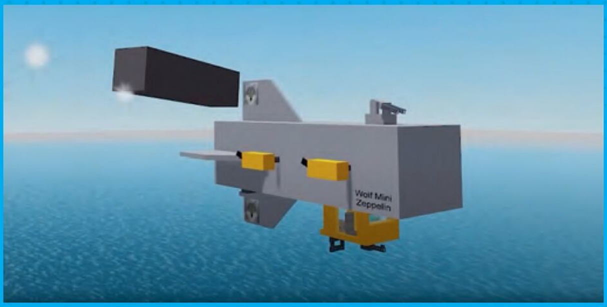
FRASER2THEMAX

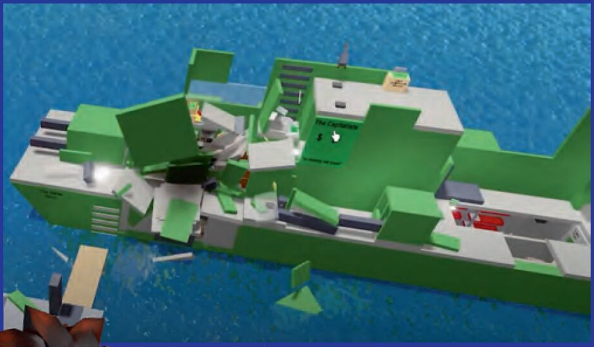
ROBLOX ROUND UP!

Each month we check out **Fraser2TheMax's** fave **Roblox** game. This month, it's **Destroy The Ship!**

WHAT IS IT?

"In **Destroy The Ship**, you're tasked with sending boats to the bottom of the sea using the cannons scattered throughout the map or the useful RPG found in your inventory! There are loads of ships to mess with, some as big as the Titanic or as small as a little canoe! Team up with players or play against them as one drives a boat and the other tries to sink it!"





BEST BIT!

"My favourite part are the planes! You can fly around the map and drop explosives or fire turrets at the ships without letting them touch you! Although beware because enemy players may use the cannons to fire at you! The blimp is a fun way to travel in the skies, although the massive balloon is extremely fragile and may not be the best idea!"
